

Each Member,

Value for Money Offers.

The Society is continuously seeking value for money from the various suppliers of health services, including prescription drugs. The following offer emerged from Scanlons Pharmacies trading as Limitless Health based in the Munster area. We wish to make you aware of the drug prices on offer and it is then a matter for yourself to research the details on their websites (details below) or on the Society's website under the heading "Drug Price Offers" and make contact with them so as you can make an informed decision. There seems to be substantial savings to be made by members with regular monthly drug prescriptions. We are engaging with a number of other Pharmacies seeking value and will provide you with details of their offers in due course.

Brief summary of Limitless Health offer:

1. Up to **60% cost savings** on some monthly prescription drugs (check price list at www.limitlesshealth.com or scanlonspharmacy.com) and on the Society's website. Offering both brand and generic drugs according to patients needs.
2. Free membership for all Society members and their spouses/partners and children and extended family.
3. A nationwide delivery service of your prescription drugs.
4. Exclusive only to Scanlons Pharmacies Limerick who will be opening a new store in Dublin in September 2015.
5. Multimed's packaging available to those members who prefer to use monitored dose management of medication.

So, you need to do your research and compare prices with your current supplier to see if you can make savings on your prescription costs. The normal benefit provided by the Society towards your monthly drugs costs will continue to be paid directly to you.

Owen Connell
Secretary.
